

KENZEN® BDZ 60 TABLETS

PRODUCT CODE: (US) 15530 | (CA) 13330

BONE HEALTH

Kenzen BDZ is a scientifically proven powerhouse formula for bone health. Just as a house requires a sturdy frame for its foundation, a human body requires a strong skeletal system. When the bones become brittle, the skeletal system becomes fragile.

The ideal complement for calcium – BDZ helps maximize the body's ability to absorb and utilize calcium to keep bones strong and help prevent the onset of osteoporosis. The MenaQ7 and Aquamin blend are combined to help build and maintain strong bones* and is rich in calcium magnesium and trace minerals.

Our bioavailable formula promotes increased bone density*, supports bone structure and increased bone strength* with a combination of patented and advanced complexes.

- Patented Vitamin K2 (MenaQ7) helps improve bone mineral content and density in postmenopausal women
- Unique marine plant multi-mineral complex (Aquamin) helps preserve bone structure and strength*
- Aquamin helps inhibits bone mineral density loss, mineralization and maturation of bone cells, protecting from exercise-induced bone loss*
- ParActin® promotes bone formation and reabsorption,
- ParActin® helps improve skeletal muscle strength and exercise performance* while fighting osteoarthritis and osteoporosis*
