

PIMAG® WATERFALL

PRODUCT CODE: 1384

GIVE YOUR BODY SOME SMART HYDRATION

The PiMag® Waterfall gravity water system helps improve cellular hydration and gives you clean, filtered water on tap from this multi-stage filtration system.

The PiMag® Waterfall works in four processes: 1) Pre-filters for sediments, 2) Filters for heavy metals, 3) Mineral stones adjust pH and 4) Magnets in the tap help improve cellular absorption.

PiMag® water is unique because it contains added minerals, creating a pH range of 8.5 - 9.5. It's alkaline, helping to maintain health by reducing any excess acidity, while the ionized water helps offset the oxidizing effect of many elements of the modern diet and environment. The decreased oxidation-reduction potential (ORP) also helps slow down cellular damage.

Made with recyclable and biodegradable materials, this filtration system is environmentally responsible and helps reduce plastic waste.

- Improved hydration with magnetic technology
- Minerals to adjust pH to create alkaline water
- Unique 4-stage PiMag water filtration technology
- Natural, gravity fed filtration – no need for electricity or plumbing
- Fits perfectly onto your counter top

FILTER SPECIFICATIONS

ANSI/NSF Standard 42 (Aesthetic Effects)

Particulates (clarity, sediments): exceeds standard Class II-VI

Chloramine: exceeds standard

Chlorine: exceeds standard

Taste & odor reduction: exceeds standard

ANSI/NSF Standard 53 (Health Effects)

Cyst reduction: exceeds standard

Lead reduction: exceeds standard

Bacteria reduction: > 99.99%

WARNING

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Use on potable tap water or other supply known to be safe for drinking.

Use with cold water only. This product is designed to reduce objectionable tastes, odors, colors, aesthetic chlorine, chloramines, VOCs and mercury from municipally treated tap water.

WARRANTY

1 year standard limited warranty

FEATURED TECHNOLOGIES

PiMag Water Technology, patent-pending nano-filtration, patent-pending alkalizing media, declustering, patented Biogreen materials for bottling

CAPACITY

Fill tank: 1.32 gallons/5 liters; supply tank: 1.45 gallons/5.5 liters (with mineral stones)

COMPONENT REPLACEMENT

Filter cartridge: 90 days or 900 liters, whichever comes first
Mineral stones: once per year

HOW TO USE

Fill top tank with water. Filtered PiMag water collects in the lower supply tank.
